

3WD BRAKE

Code: 067W0300100

Color: BLACK

Size: ONE SIZE

Description

The Rollerblade 3WD Brake mounts on Rollerblade 3WD frames (excludes Macroblade/Microblade models) and helps those who feel more confident with a brake on their 3WD frames. Typically 3WD skates do not come with brakes because of the skating style and speed applications. The brake comes with all the necessary hardware and installation instructions and also blends in nicely with the frames for a clean finished appearance.

FEATURES:

- A BRAKE SYSTEM FOR ROLLERBLADE 3WD FRAMES.
- brake pad is for those who want to have a brake on their 3WD skates. (Excludes Macroblade and Microblade)
- CNC MACHINED ALUMINUM adds durability and strength in power transfer
- MOUNTS EASILY, BLENDS IN WITH THE FRAME and maintains effective braking power. It also maintains the same stopping power when using 110mm wheels on a 125mm frame, or 100mm wheels on a 110mm frame.
- COMPLETE KIT includes brake support, pad, mounting screws, allen key and illustrated instructions.
