

TWISTER EDGE 110 3WD

Code: 078473008E6

Color: BLACK/ARMY GREEN

Size: 23,0 - 31,0 MP (cm)

Description

Twister molded boots started the urban skate category and continue to be one of the best selling skates in the market. Twister Edge 110 3WD changes the game again. The new design, fit and level of versatility continue its reign as the benchmark skate in the urban skate industry. The boot and liner work together to create a superior anatomical fit. The sole is designed with an Anti Torsion Box to be efficient with increased control and stiffness. The 3WD frame and Hydrogen wheels round out the skate with speed. The comfort, speed, control, ultimate lateral support, secure closure system, lateral sliders, shock absorbing padding in the heel and antimicrobial liner materials will definitely give skaters the edge.

The Brake does not typically come on these skates but one is available as an aftermarket item. (3WD Brake Support) **FEATURES:- EXTREMELY VERSATILE MOLDED SHELL SKATE** created for the an urban, fitness, commuter and recreational skater.

Supportive and comfortable enough for all skating applications with this 3WD 110mm setup.- **ENHANCED WRAPPING SHELL** features unbeatable molded support to hug the feet. The cuff has a V-cut shape which adds versatility and more flexibility for slalom skaters.- **FIRST FIT PREMIUM ANTIMICROBIAL LINER** have shaped ankle heel lock padding, First Fit tongue wraps the instep. Heel shock absorber, cuff buckle, micro-adjustable buckle and lace closure system- **ANTI TORSION BOX** design and the aluminum plates are nested in the shell to ensure the frame and shell connection are rigid, energy transfer is maximized.- **HIGH QUALITY HYDROGEN 110mm/85A WHEELS** are made in the USA with a proprietary urethane formula to provide performance, less vibration, longer wear & a better roll. Twincam ILQ-9 Classic Plus bearings.
