

CYCLONE G

Code: 078517007Y9

Color: BLACK/PINK

Size: 20.0-25.0

Description

Cyclone G is a great skate for kids wanting a molded skate that is tough, maneuverable and fast. RB molded boots are known to be durable and comfortable for all skating environments. Kids are savvy shoppers too and want their equipment to be authentic and appropriate for the sport they are participating in. This skate is different because it provides a type of experience and performance that traditional skates cannot. Mostly popular in urban areas, molded skates are catching on as the new "go-to" skate because of their versatility.

Cyclone is adjustable two sizes with extra padding in the liner. The skate is shipped in the smaller size and if the child needs more room, simply remove the "size adjuster" in the liner's toe to create the extra room. This design system allows for true performance and fit. Bigger wheels and better bearings add speed. This is an ultra responsive, cool and versatile skate that kids will enjoy using. Brake is on the skate.

FEATURES:

- **BEST KIDS MOLDED SHELL** The Cyclone is perfect for the kid who wants to experience molded boots and explore new styles of rolling anywhere and everywhere in this extremely versatile and durable skate.
- **SIZE ADJUSTABLE** liner in the molded shell provides exceptional support, is vented for breathability and has additional protection from the lateral slider plate.
- **COMFORTABLE HIGH PERFORMANCE LINER** additional shock absorber in the heel adds great cushioning with vibration dampening for skating around or jumping obstacles. Buckle, power strap and lace closure.
- **DURABLE EXTRUDED ALUMINUM FRAME** 231mm/9.1" is rigid, stable and has a lower profile design to lower the center of gravity with speed and maneuverability.
- **ROLLERBLADE PERFORMANCE WHEELS** 76mm/80A w paired with SG5 bearings for a faster, smooth roll with extra speed to make the ride a little more exciting.
